***"Are Economists Basically Immoral?" and Other Essays on Economics, Ethics, and Religion***

Paul Heyne

Liberty Fund, 2008

*A well-trained theologian, a gifted and dedicated teacher of economics for over forty years, and the author of a highly regarded and widely used textbook, *The Economic Way of Thinking*, Paul Heyne influenced generations of students of economics. Many of the essays in this volume are published here for the first time. The editors, Geoffrey Brennan and A. M. C. Waterman, have divided Heyne's essays thematically to cover three general areas: the ethical foundations of free markets, the connection between those ethical foundations and Christian thought, and the teaching of economics—both method and substance.*

***The Illusion of the Epoch***

H.B. Acton

Liberty Fund, 2003

*Far from demonizing his subject, Acton scrupulously notes where Marx's account of historical and economic events and processes is essentially accurate. However, Acton also points out that Marx is generally right about things that were already widely known and accepted in his own time and indeed had been long understood in the nineteenth century. On the other hand, Acton shows that in many cases Marx either is simply wrong or has stated his views so as to render his theories immune to disproof. Acton also explains why the embodiment of Marxist-Leninist theory in an actual social order would require coercive support if it were not, sooner or later, to collapse of its own contradictions.*

***The Collected Works of Henry G. Manne***

***In Three Volumes***

Henry G. Manne

Liberty Fund, 2010

*As the founder of the Center for Law and Economics at George Mason University and dean emeritus of the George Mason School of Law, Henry G. Manne is one of the founding scholars of law and economics as a discipline. This three-volume collection includes articles, reviews, and books from more than four decades, featuring *Wall Street in Transition*, which redefined the commonly held view of the corporate firm.*

***Volume 1, The Economics of Corporations and Corporate Law***, includes Manne's seminal writings on corporate law and his landmark blend of economics and law that is today accepted as a standard discipline, showing how Manne developed a comprehensive theory of the modern corporation that has provided a framework for legal, economic, and financial analysis of the corporate firm. <http://library.ime.bg/the-collected-works-of-henry-g-manne/>

***Volume 2, Insider Trading***, uses Manne's ground-breaking *Insider Trading and the Stock Market* as a

framework for many of Manne's innovative contributions to the field, as well as a fresh context for understanding the complex world of corporate law and securities regulation. <http://library.ime.bg/the-collected-works-of-henry-g-manne-1/>

**Volume 3, Liberty and Freedom in the Economic Ordering of Society**, includes selections exploring Manne's thoughts on corporate social responsibility, on the regulation of capital markets and securities offerings, especially as examined in *Wall Street in Transition*, on the role of the modern university, and on the relationship among law, regulation, and the free market. <http://library.ime.bg/the-collected-works-of-henry-g-manne-2/>

***Essays, Moral, Political, and Literary***

David Hume

Liberty Fund, 1985

*This edition contains the thirty-nine essays included in Essays, Moral, and Literary, that made up Volume I of the 1777 posthumous Essays and Treatises on Several Subjects. It also includes ten essays that were withdrawn or left unpublished by Hume for various reasons. The two most important were deemed too controversial for the religious climate of his time.*

*This revised edition reflects changes based on further comparisons with eighteenth-century texts and an extensive reworking of the index.* <http://library.ime.bg/essays-moral-political-and-literary/>
